## NETHERLANDER ALLIANCE

### THE CROSSLAND UNITED AT LAST

Representatives from the four principle crosser clans met recently, to end decades of inter-nether warring, and commit to a single aim of defeating the nascenti scum and freeing the town of Hellsborough from its eon long oppression.

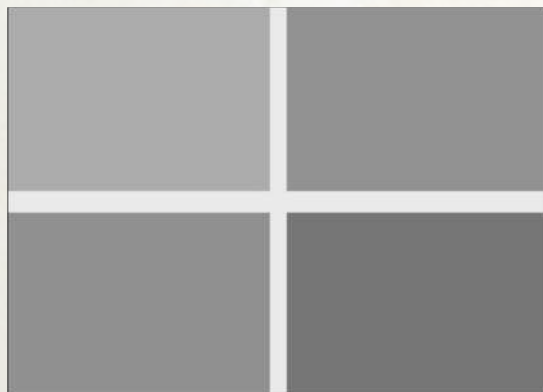

By the time you read this, you may have already been contacted by a member of your community and be joining in the resistance. We encourage you to participate in any way you can, and lend your skills to our cause.

An historic agreement has been reached between the four major clans of the Nether lands, and as of now we are all part of an alliance that aims to rid our lands of the six leggers and eight leggers that has plagued us for so long.

The Netherlander Alliance has a new flag to cement this hopeful period of unitedness. We expect that you will start to see this ensign at various locations throughout the crosslands. The founding members have agreed to fly the flag on all administrative buildings and the flag will also be displayed on some clothing items - a sign of approachability between clans and a reminder that we are not at war with each other, but against a common foe.

The colours represent the four principle clans: (in no particular order)

bottom right, the green of the marshes, top right, the red of the leaf fall of the woods, bottom left, the purple of the heather on the moors, top left, the blue of the sky as seen from the ley below.

The positioning of the colours in no way represents the social standing of any clan, it is because you look up to see the colour of the sky and the tree, and look down to see the colour of the ground - the moor and the marsh. Equally, there is no precedence between left and right, we are all equal in the alliance. The central cross represents the crosslands and its colour, the colour of bone.

### Founders of the Netherlander Alliance

(clans listed alphabetically, no favoritism is given to any clan):

Ley - Scraith Rawson, Marsh - Brook Riggs, Moor - Scarp Southey, Wood - Holly Shrogs

The cross of bone -- the many bones that have been broken and crushed in our war against the nascenti and the others of our rightful ancestral home.

### MANY YEARS AGO...

We lived in harmony with ourselves and the environment. It is now our hope that we may do so again, once the eight legged bottom sucking scum has been consigned to the will of dunlockslyn.
